Featuring Stainless Steel Clocks and Belt Shafts

Improved Stainless Steel Clock

WMT's New Mini and Maxi Belt Feeders

WMT BELT FEEDERS

Proven over decades, belt feeders are simple and reliable at delivering feed over a 12 hour period with no electricity.

WMT belt feeders are the highest quality in the industry because they feature a stainless steel clock and belt shaft, water resistant cover, and thick vulcanized belt.

The body is injection-molded plastic that offers excellent weather resistance and long term durability.

OPERATION

1. Place feeder over rearing unit
2. Open top
3. Pull belt
4. Place feed on belt
5. Close lid

MINI BELT FEEDER

Specifications

Capacity 5 pounds
Length 22 inches
Width 8 inches
Height 6 inches

MAXI BELT FEEDER

Specifications

Capacity 10 pounds
Length 22 inches
Width 12 inches
Height 6 inches
