The Finest Ceramic Diffuser for Aquaculture

The ECD200 and the larger ECD400 diffusers are specifically designed for fish tank oxygenation. This unique design improves water circulation and oxygen transfer efficiency. The diffusers are constructed with a proprietary ceramic formula in an innovative manner to ensure product durability and ultimate performance.

INNOVATIVE FEATURES

Superior Oxygen Absorption

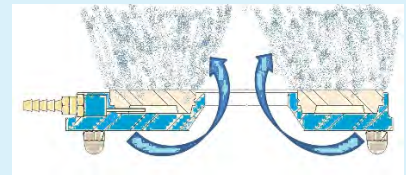

Produces ultra-fine bubbles, 50-200 um at recommended flow rates.

Durable & Dependable

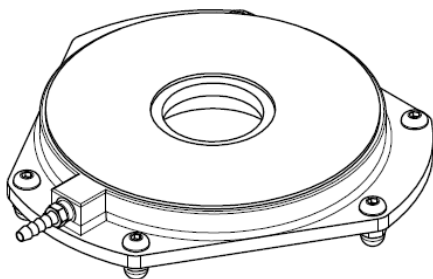

Corrosion proof polyurethane base, with stainless steel fittings.

Airlift Principle

Improves oxygen transfer efficiency and circulation within a system.
